## **PSI TECHNOLOGIES APPOINTS FORMER ON SEMI VETERAN AS NEW SENIOR MANUFACTURING EXECUTIVE**

**Manila, February 19, 2002** -- PSI Technologies, Inc. (NASDAQ: PSIT), the world's leading independent provider of power semiconductor assembly and test services, announced today the appointment of Bryan C. Rigg, former ON Semiconductor Head of IC Assembly & Test Engineering for External Manufacturing, as Vice President and Head of Manufacturing Operations for the company's main facility in Taguig, Metro Manila. He will report to PSi Senior Vice President and Head of Operations, Mario Buencamino.

Chairman and Chief Executive Officer Arthur J. Young, Jr. said that the acquisition of Rigg, "is one of many concrete steps we are taking to beef up our manufacturing operations with senior people who have decades of experience in our business. Bryan brings with him years of direct operating experience in world-class semiconductor manufacturing, and in particular, the actual management of outsourced manufacturing operations".

Rigg's last position in ON Semiconductor was Manager of External Manufacturing – IC Assembly and Test Engineering. He was responsible for the performance of 12 External Manufacturing (Subcontract) Assembly & Test facilities within the Asia-Pacific region, including PSi Technologies' facilities in the Philippines.

Prior to this, Rigg was Manufacturing Engineering & Development Department Manager, and then over-all Manufacturing Operations Manager of Motorola Philippines Carmona, from 1993 to 1998.

He spent most of his 23 years in semiconductor manufacturing in Motorola Inc.

### *About PSi Technologies*

PSi Technologies is a focused independent semiconductor assembly and test service provider to the power semiconductor market. The Company provides comprehensive package design, assembly and test services for power semiconductors used in telecommunications and networking systems, computers and computer peripherals, consumer electronics, electronic office equipment, automotive systems and industrial products. Their customers include most of the major power semiconductor manufacturers in the world such as Philips Semiconductor, ON Semiconductor, Texas Instruments, Fairchild Semiconductor, ST Microelectronics, and Infineon Technologies.

For more information, visit the Company's web site at [www.psitechnologies.com](http://www.psitechnologies.com).

*This press release contains forward-looking statements that involve risks and uncertainties. Actual results may differ materially. Factors that might cause a difference include, but are not limited to, those relating to the pace of development and market acceptance of PSi's products and the power semiconductor market generally, commercialization and technological delays or difficulties, the impact of competitive products and technologies, competitive pricing pressures, manufacturing risks, the possibility of our products infringing patents and other intellectual property of third parties, product defects, costs of product development and manufacturing and government regulation. PSi will not update these forward-looking statements to reflect events or circumstances after the date hereof. More detailed information about potential factors that could affect PSi's financial results is included in the documents PSi files from time to time with the Securities and Exchange Commission.*
